

# PAINT ELIGIBILITY GUIDE

albertarecycling.ca

## HOW TO USE THIS GUIDE

- Step 1:** Choose the appropriate category for the paint product you are dealing with.
- Step 2:** Choose the appropriate subcategory for the material you are dealing with.
- Step 3:** Follow the pathway of the category you have chosen, answering the questions within that pathway.

**Why are some items ineligible?**  
 The paint recycling program uses eco-fees—paid at the time of purchase—to cover the cost of recycling paint materials. Ineligible material does not collect eco-fees and thus cannot be recycled through the paint program.
